

PRODUCT SPOTLIGHT

## Glas tender.

### MODULAR BAR DIE

A modular bar die saves operators time, money and labor costs during construction -- and is easy to clean after installation. Millwork and bar fronts can be designed to reflect the operator's desired look.

- Arrives pre-assembled from the factory in sections up to 10 feet long for easy installation -- lowers installation costs. Just bolt the sections together, level, and attach to the floor.
- Eliminates all underbar legs for easy cleaning.
- Stainless steel from floor to bar top and sealed to the floor on the bartender side to prevent moisture from absorbing into the bar die wall or leaking to the customer side of the bar.
- Incredibly strong 16 gauge galvanized steel structure easily withstands 1,000 pounds per foot of downward
- Built-in chaseways hide beer, soda, plumbing, and electrical lines for a more attractive and easier to clean bar.
- Fluorescent lights and GFI outlets for electrical equipment built-in to bar die wall to reduce installation time (wiring not included).
- Pre-engineered to exact dimensions to ensure all bar equipment fits properly.
- Millwork bar top and front panels can be pre-fabricated and easily attached to shorten installation time.
